CIS · CONSTRUCTION

Having 30% taken off your pay? You are probably not registered.

In construction, the firm paying you keeps part of the money and sends it to HMRC in your name. How much it keeps turns on one thing.

20% OR 30%

20%

Registered for CIS, the contractor deducts **20%**. Not registered, **30%**. The money is not lost: it comes off your tax bill when you file.

> Registering with HMRC is free. The gap between the two rates is 10% of every payment.

WHO HAS NO DEDUCTION

0%

Employees are not in CIS at all: on the payroll, nothing is deducted under CIS. And nothing is deducted from materials you paid for or from VAT — only from your labour.

> Site security, the canteen and medical services on site are outside CIS too.
