SELLING ONLINE · GOV.UK

The platform reports you to HMRC. That is not a tax bill.

Since 1 January 2024 the sites and apps you sell on have had to collect seller details and report them to HMRC. HMRC's own words: this does not automatically mean that you owe tax.

WHEN YOU ARE NOT REPORTED

30 sales

Your details are not reported if you make fewer than 30 sales of goods in a calendar year and receive no more than 2,000 euros — about £1,700 — for those sales.

> Whatever is reported, the platform operator has to give you a copy of it.

WHO USUALLY OWES NO TAX

your own

Things that were yours and that you used — clothes, furniture, an old phone — usually carry no Income Tax, however many you sell.

> An item sold over £6,000 can bring in Capital Gains Tax. Goods bought in order to sell: tell HMRC above £1,000 taken in over the tax year.
