CORPORATION TAX · LIMITED COMPANIES

The company pays before it files.

Corporation Tax is due 9 months and one day after the end of the accounting period. The return is due 12 months after it. Treat the two as one date and the payment is three months late.

THE TWO DEADLINES

9+1

Pay Corporation Tax 9 months and one day after the day your accounting period ends. File the Company Tax Return within 12 months of that same day.

> Where taxable profits top £1.5 million, the tax is paid in instalments rather than in one go.

WHO DOES NOT FILE

dormant

You still send a return after a loss, and when there is no Corporation Tax to pay. The main exception is a company dormant for Corporation Tax — it stopped trading and has no other income.

> Even then, accounts and a confirmation statement still go to Companies House, the companies registry. Dormant for HMRC is not dormant there.
