SELF ASSESSMENT · 31 JANUARY 2027

# You filed on time. You just did not pay.

Those are two different penalties. Filing late starts at £100 and grows the longer you leave it. Paying late is a percentage of what you owe.

THREE PENALTIES, 5% EACH

# 5%

At **30 days** past the deadline: 5% of last year's tax left unpaid. At **6 months**: another 5%. At **12 months**: another 5%.

> Plus interest every day until you pay: 7.75% a year now, 8% from 24 November 2026.

WHO DOES NOT GET THE 5%

# 31 July

On 31 January you usually pay two things: the rest of last year's tax, and an instalment towards this year. The 5% only hits the first. Late on the 31 July instalment, you pay interest, not a penalty.

> That instalment is worked out from last year's tax bill.
