ENERGY BILLS · WARM HOME DISCOUNT

£150 off the electricity bill — England, Scotland and Wales.

No money reaches your hand — your supplier takes £150 off the bill this winter. In Northern Ireland there is no scheme.

THE DAY THEY LOOK AT: 23 AUGUST 2026

£150

In England and Wales: Universal Credit, Housing Benefit, income-related ESA or Pension Credit was in payment, and you, your DWP-notified partner or your legal representative was on the account.

> Usually automatic, by letter, and on the bill by 31 March 2027. Scotland has its own benefits list: automatic only for the core group, otherwise you apply to your supplier.

WHO DOES NOT GET IT

N. Ireland

Is the account in neither your name, your partner's nor a legal representative's? You do not get it. Hold the account and you do qualify — even with no paper bill.

> Not the whole list: Northern Ireland, permanent care home residents, caravans — excluded by property records, though a helpline route exists. In Scotland some apply to their supplier.

ENERGY BILLS · WARM HOME DISCOUNT

The £150 comes from a supplier, not an accountant.
