SMALL BUSINESS RATE RELIEF · GOV.UK

Your shop could be paying no business rates at all.

It turns on the rateable value — the figure the Valuation Office puts on your property. That is not your rent and not your takings.

RATEABLE VALUE

£12,000

Rated at £12,000 or less and you pay nothing on it. Above that the relief slides down, and it has run out by £15,000.

> At £13,500 you get half off. At £14,000, a third.

WHO GETS NOTHING

£15,000

At £15,000 or more there is no small business rate relief. An empty property gets none, and a charity on charitable relief cannot have both.

> The relief sits on one property only.

OLA ACCOUNTANCY · BIRMINGHAM

The relief is not added for you.

Our Birmingham office will show you where the rateable value sits on the bill and where the council takes the application.
