ANNUAL INVESTMENT ALLOWANCE · GOV.UK

You bought a goods van for work.

The cost comes off the profit of the year you paid for it, not later years.

THE LIMIT

£1m

Up to £1 million a year on tools, machinery, equipment, computers and vehicles built to carry goods.

> Use it privately as well and you claim only the business share of the cost.

WHO GETS NOTHING

Cars

Cars never qualify, however much you drive for work. And a partnership with a company among its members gets nothing at all.

> What matters is what the vehicle was built to carry: goods, or people.

OLA ACCOUNTANCY · LUTON AND BIRMINGHAM

Not sure whether what you bought comes off now or over several years?

Message us on WhatsApp with what you bought and we will tell you which category it falls into.
