SELF ASSESSMENT · 31 JANUARY 2027

Why January costs more than the return says

31 January is not only the 2025/26 liability. It also carries the first payment on account for the year ahead.

31 JANUARY 2027

50%

First payment on account: half of last year's tax, on top of the 2025/26 balancing payment.

> Payments on account include Class 4 National Insurance for the self-employed.

31 JULY 2027

50%

The second instalment. Same amount, six months later.

> Capital Gains Tax and student loan sit in the balancing payment, not the instalments.

WHO IS OUTSIDE IT

£1,000

Last year's tax under £1,000, or over **80%** deducted at source: no instalments.
